

## SMITH'S, A LEADING MANUFACTURER OF SHARPENERS, KNIVES, AND RELATED PRODUCTS, INTRODUCES TWO NEW TOOLS FOR HUNTERS.

**(Hot Springs, Arkansas, November 1, 2019)** – Smith's Consumer Products, a company that has been keeping knives sharp since 1886, has announced the introduction of two new products designed to make hunters' lives easier: The Edgesport Folding Knife and Gut Hook, and the Edgesport Folding Gut Hook.

The Edgesport Folding Knife and Gut Hook features a 3" 400-series stainless steel blade, orange G10 handle, and comes with a hard plastic sheath with belt clip. Upon initial inspection, this knife appears to be a standard fixed-blade design but when the push button lock is pressed, the knife blade folds into the handle and the gut hook folds out and locks into place. The gut hook blades are removable and replaceable.

Smith's new Folding Gut Hook is a heavy-duty, single purpose tool that features a fold-out gut hook, also with replaceable blades, a glass-filled PP handle with G10 texture, a finger hole for ease of use, and a liner lock for safety. The Folding Gut Hook also comes with a hard plastic sheath that includes a belt clip.

"Both of these innovative new products will be extremely useful for game hunters," said Smith's Vice President of Marketing, Ricky Dukes. "We continue to identify new products to bring to market and these gut hook tools are just our latest additions." Dukes added, "Both of these products will soon be available from major retailers and the Smith's website."

Smith's Consumer Products, Inc. is a leading global supplier of products for the sporting goods, hardware, and housewares markets.
